Wall Mount Fiber Enclosures

The Megladon Difference

Megladon's **Wall Mount Fiber Enclosure** is designed to provide a flexible transition point for interconnecting and/or splicing in wall mount applications. It has capacity for up to 2 LGX compatible adapter plates or fanout cassettes, and has included fiber entry and management features. Built from solid, powder coated steel, with dual lockable doors.

For more information on Megladon's HLC® process and products, please visit megladonmfg.com.
