High-Density Rack Mount Fiber Management Panels

The Megladon Difference

High-Density Rack Mount Fiber Management Panels offer unsurpassed fiber density and performance. Panels are capable of supporting 144 fibers in 1RU, 288 fibers in 2RU and 576 fiber in 4RU. The panels support High-Density MPO Distribution Cassettes that allow for scalable MPO deployments, and have built in fiber management components. Access is simplified through front and rear port access, and a removable top panel.
